The ongoing Prime Minister declared a state of emergency in flood-hit areas in northern Hungary on Monday for the first time in the country's history. The AMH and the AMAB are working to help flood victims in order to ensure that they get the necessary assistance from their government.

Many roofs and doors have received serious damage and thousands of residents have been displaced in several parts of Hungary.
In the past 2,000 inhabitants have been forced to leave their homes. Most of the displacement occurred in the north east, where 2,000 have been evacuated, some to rubber boats, National Disaster Authority spokesman Ferenc Kovács said last night.
Damage to the country's roads has total several hundred million forints, road management company Magyar Közút said last in a statement. Safety: several of Hungary's roads have been flooded or washed out, the document added.
The 85 highways for heavy traffic closed near there as a result of flooding and will remain closed for several days. The highway is a major route connecting Budapest and the main border crossing with Austria and Switzerland.

"Justice for Hungary" - a historic flight calling attention to the tragic [Treaty of Trianon](#). In 1931, papers all over the world reported on the front page that two Hungarian

pilots, Alexander Magyar and George Endresz (Endres), had crossed the Atlantic Ocean from the United States to Hungary in a Lockheed-Sirius airplane named "Justice for Hungary." The flight was intended to call attention to the

Committee is seeking your help to erect a statue in Washington, D.C. devoted to the heroes of the Hungarian Revolution. The AHF plan calls for an actual-size statue to be placed prominently in Washington while we raise funds for its bronze replacement. Seen here with his prototype design is renowned sculptor Gyuri Hollosy, who was responsible for the Boston Liberty Square memorial. At the recent Capitol Reception honoring 1848, Congressman Tom Lantos mentioned his intent to place a 1956 memorial in Washington. We must ensure this remarkable design is selected! "BANJIN picks up more than 200 years after Shogun. The year is 1843. Another shipwreck. A Japanese boy, Masahiro, is blown in storm away from his village to a desolate island, rescued by American whalers and brought to New Bedford, Massachusetts in a voyage that would make Conrad, Melville or Dana proud. As John Mong, the boy is well educated at Exeter, advises Congress, goes back to sea, joins the Gold Rush in California, and returns home to Japan. He becomes Lord Tanaka Masahiro, and helps open Japan to the west as a leading character in the Meiji Restoration.

There's enough action, intrigue, passion and character development to fill a half-dozen regular novels or Hollywood movies."
